

FLUROPON® 70% PVDF COATINGS

from Sherwin-Williams®

Keeping your projects looking as good as the day they were built.
FALK Panel has partnered with Sherwin-Williams Coil Coatings to provide long-lasting beauty and durability for your next project.*

Chosen more often than any other brand of PVDF-based coatings, none is more trusted than Sherwin-Williams exterior metal coating systems. Fluoropolymer coatings contain 70% polyvinylidene difluoride (PVDF) resins and are field and time proven. They meet or exceed the most rigorous ASTM performance standards.

CATEGORY 1 - Standard

Regal White 431R444	Sandstone 433R396	Surrey Beige 433B530	Taupestone 437C1254
Spartan Bronze 437R270	Dove Gray 432R1021	Charcoal 432R1065	Dutch White DGW0315

CATEGORY 2 - Premium

Silversmith 439RZ1541M	Weathered Zinc 439RZ1563M	Aged Copper 439Z7883M	Hartford Green 435A614
Regal Blue 436R1030	Colonial Red 434R637	Brite Red II 434B204	Black (<i>Trim Only</i>) 438A397

*Category 2 items are considered non-standard items with limited availability and extended lead times.
Color requests not listed are considered custom requests involving special approval and quantity minimums.*

Benefits

- Superior resistance to ultraviolet rays
- Outstanding color retention and consistency
- Excellent overall adhesion
- Great flexibility and formability
- High film integrity

Colors

Our Fluropon® systems are available in a wide range of colors, sheens, gloss levels and special effects to achieve nearly any look you can dream up.

Substrates

Fluropon® coatings may be applied to a number of pretreated substrates including: Galvalume®, Hot-Dipped Galvanized (HDG) steel and aluminum.

End Uses

All Fluropon® coatings are ideal for external use on monumental, commercial, residential structures and pre-engineered buildings, including:

- Architectural and residential metal roofing systems
- Composite and insulated metal wall panel systems

TO OBTAIN COLOR SAMPLES OF ANY OF THE COATINGS FEATURED ON THIS PAGE, OR IF YOU NEED MORE INFORMATION ABOUT OUR COMPLETE RANGE OF COLORS AND OPTIONS, CALL 616.541.4500 OR VISIT FALKPANEL.COM

Digital colors are an approximation of true colors. Contact FALK Panel directly to request actual color samples.

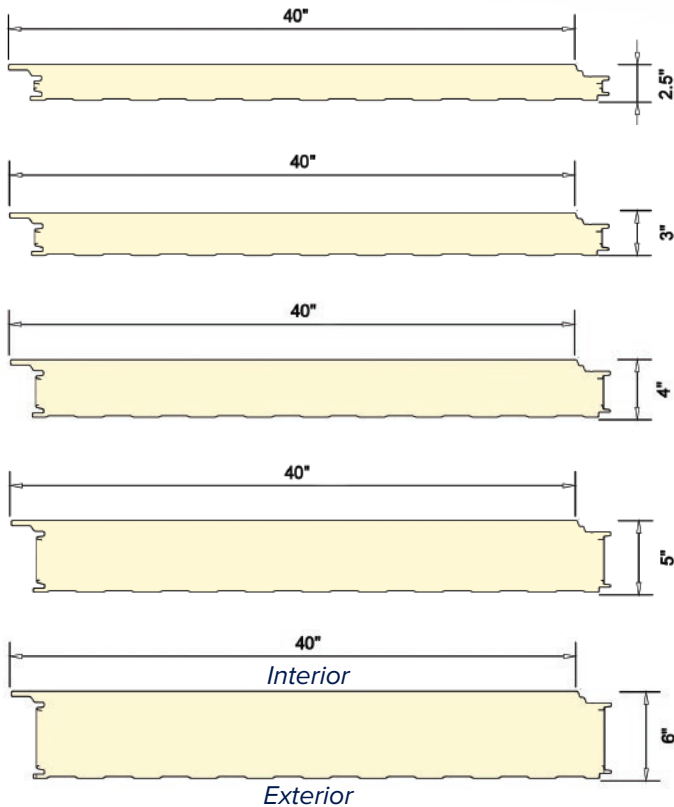

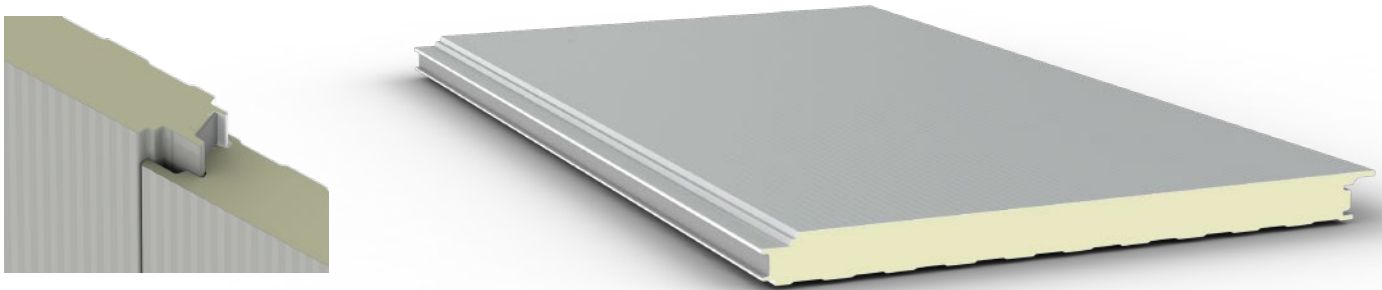

FALK HFW-40 HIDDEN FIXED WALL PANEL

Core Thickness	U-factor (IP)	R-value**	U-value (SI)
[in]	[BTU/h·ft ² ·°F]	[h·ft ² ·°F/BTU]	W/(m ² ·K)
2.5	0.0557	17.95	0.316
3	0.0464	21.54	0.264
4	0.0348	28.72	0.198
5	0.0279	35.90	0.158
6	0.0232	43.08	0.132

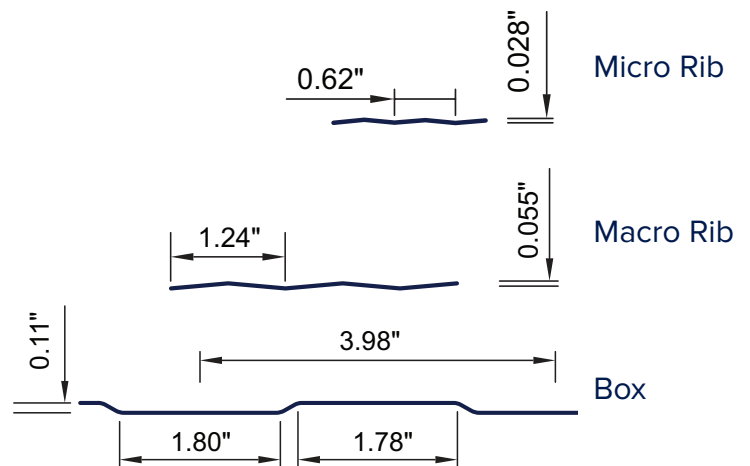

* Tested at 40 degrees Fahrenheit Mean Temperature

** Catalog ratings are based on European test standards. American test results will be published on our website as soon as they become available.

- Max. length up to 82 feet*
- Macro Rib, Micro Rib, Box Profile
- Colorcoat HPS200 Ultra®, Sherwin-Williams Fluropon® 70% PVDF, or Sherwin-Williams® SMP for exterior faces
- Designed for vertical and horizontal installation
- Hidden fastener
- Non-embossed available

*Requires special transportation arrangements

THE FALK ADVANTAGE

FALK Panel is a producer of premium insulated metal panels (IMP).

Our state-of-the-art panels decrease construction time, lower labor costs, hide fasteners, get to your job site on time and reduce the problems of coordinating multiple trades.

Located in West Michigan, we are proud to have the most technically advanced panel production facility in North America. Our talented and committed employees have deep experience in the world of metal roofing and siding systems. We are a quality-driven organization. We thrive on providing the insulated metal panel (IMP) market with exceptional value, craftsmanship and flexibility. We work tirelessly to ensure our panels stand the test of time and exceed our customers' expectations. Exemplary customer service defines FALK Panel. We want you satisfied at every touchpoint along the way. We can supply fasteners, flashing, trim, tools and vacuum lifting systems and most importantly, our personal attention to make sure your next project shines!

FALK is a dynamic company, always moving forward, and always searching for new ways to improve our service. We are eager to be your insulated metal panel (IMP) partner for your next project!

Call us today for more information and help in getting your project quoted and on the way to your next job site.
